Agreements with private companies protect U.S. access to cables' data for surveillance

By Craig Timberg and Ellen Nakashima July 6, 2013 M

 The U.S. government had a problem: Spying in the digital age required access to the fiber-optic cables traversing the world's oceans, carrying torrents of data at the speed

 Washington Post
 of light. And one of the biggest operators of those cables was being sold to an Asian firm, potentially complicating American surveillance efforts.

Partial Internet Outages are Common

- Measured 2M outages over 2 months
 - 79% were partial
- 10% of outages lasted over 10 minutes
- Variety of causes:

route convergence delays, pathological routing policies, misconfiguration, prefix hijacking, route injection, router bugs, DDoS

Katz-Bassett, Ethan, et al. "LIFEGUARD: Practical repair of persistent route failures." *ACM SIGCOMM Computer Communication Review* 42.4 (2012): 395-406.

Progress

2013

- Initial support for reliable WebRTC data channels
- Prototype demonstrated at Google Ideas Summit

2014

- UX redesign
- Chrome/Firefox extensions
- Staff up team
- Security reviews
- Open source on GitHub
- Obfuscated WebRTC

Looking Ahead

Publish to the WebStore uProxy Mobile Client uProxy for Cloud

Plugin support

- social networks
- alternate network transport protocols
- proxy service interfaces
